

Vulnerability Scan Report

Scan ID: 2

Target: metasploitable 2 (192.168.57.15)

Date: 2025-12-03 18:06:42.096161

Status: completed

Findings

Vulnerability	Severity	Status
Open Port 21/tcp - ftp Port 21/tcp is open running ftp. Ensure this service is authorized and properly secured.	Info	open
Open Port 22/tcp - ssh Port 22/tcp is open running ssh. Ensure this service is authorized and properly secured.	Info	open
Open Port 23/tcp - telnet Port 23/tcp is open running telnet. Ensure this service is authorized and properly secured.	Info	open
Open Port 25/tcp - smtp Port 25/tcp is open running smtp. Ensure this service is authorized and properly secured.	Info	open
Open Port 53/tcp - domain Port 53/tcp is open running domain. Ensure this service is authorized and properly secured.	Info	open
Open Port 80/tcp - http Port 80/tcp is open running http. Ensure this service is authorized and properly secured.	Info	open
Open Port 111/tcp - rpcbind Port 111/tcp is open running rpcbind. Ensure this service is authorized and properly secured.	Info	open
Open Port 139/tcp - netbios-ssn Port 139/tcp is open running netbios-ssn. Ensure this service is authorized and properly secured.	Info	open

Vulnerability	Severity	Status
Open Port 445/tcp - netbios-ssn Port 445/tcp is open running netbios-ssn. Ensure this service is authorized and properly secured.	Info	open
Open Port 512/tcp - exec Port 512/tcp is open running exec. Ensure this service is authorized and properly secured.	Info	open
Open Port 513/tcp - login Port 513/tcp is open running login. Ensure this service is authorized and properly secured.	Info	open
Open Port 514/tcp - shell Port 514/tcp is open running shell. Ensure this service is authorized and properly secured.	Info	open
Open Port 1099/tcp - java-rmi Port 1099/tcp is open running java-rmi. Ensure this service is authorized and properly secured.	Info	open
Open Port 1524/tcp - bindshell Port 1524/tcp is open running bindshell. Ensure this service is authorized and properly secured.	Info	open
Open Port 2049/tcp - nfs Port 2049/tcp is open running nfs. Ensure this service is authorized and properly secured.	Info	open
Open Port 2121/tcp - ftp Port 2121/tcp is open running ftp. Ensure this service is authorized and properly secured.	Info	open
Open Port 3306/tcp - mysql Port 3306/tcp is open running mysql. Ensure this service is authorized and properly secured.	Info	open
Open Port 3632/tcp - distccd Port 3632/tcp is open running distccd. Ensure this service is authorized and properly secured.	Info	open
Open Port 5432/tcp - postgresql Port 5432/tcp is open running postgresql. Ensure this service is authorized and properly secured.	Info	open
Open Port 5900/tcp - vnc Port 5900/tcp is open running vnc. Ensure this service is authorized and properly secured.	Info	open

Vulnerability	Severity	Status
Open Port 6000/tcp - X11 Port 6000/tcp is open running X11. Ensure this service is authorized and properly secured.	Info	open
Open Port 6667/tcp - irc Port 6667/tcp is open running irc. Ensure this service is authorized and properly secured.	Info	open
Open Port 6697/tcp - irc Port 6697/tcp is open running irc. Ensure this service is authorized and properly secured.	Info	open
Open Port 8009/tcp - ajp13 Port 8009/tcp is open running ajp13. Ensure this service is authorized and properly secured.	Info	open
Open Port 8180/tcp - http Port 8180/tcp is open running http. Ensure this service is authorized and properly secured.	Info	open
Open Port 8787/tcp - drb Port 8787/tcp is open running drb. Ensure this service is authorized and properly secured.	Info	open
Open Port 37130/tcp - mountd Port 37130/tcp is open running mountd. Ensure this service is authorized and properly secured.	Info	open
Open Port 39288/tcp - nlockmgr Port 39288/tcp is open running nlockmgr. Ensure this service is authorized and properly secured.	Info	open
Open Port 40419/tcp - status Port 40419/tcp is open running status. Ensure this service is authorized and properly secured.	Info	open
Open Port 57470/tcp - java-rmi Port 57470/tcp is open running java-rmi. Ensure this service is authorized and properly secured.	Info	open

Discovered Assets

No open ports or services discovered.
